

Federal Specification A-A-2886B Type II

Characteristics:

- Fast dry paint
- Smooth, hard finish
- Tougher than conventional solvent based paints
- Spreading rate of 110 – 130 square feet per gallon
- Spreading rate of 350 linear feet per gallon of 4–inch line
- Can be applied with standard striping equipment, without modification
- Excellent adhesion to concrete and asphalt
- Excellent bead adhesion
- Easy clean–up with Xylene or Toluene

Cautions:

- May bleed on fresh asphalt or sealcoated surfaces – See “Application Procedures”
- This paint may lift improperly aged or inferior asphalt pavements
- Keep away from all heat sources – Flammable

Specifications	
Viscosity: 70 to 85 Krebs Units	Total Solids: 70 % minimum
Weight per gallon: 12.30 minimum	Solvent Type: Toluene
Dry to NPU: 10 minutes max. track free at 15 mils wet	Shelf Life: 9 months minimum properly stored
Vehicle Type: Alkyd Resin
